

FLUXMATIC SOLUTION LLP

Corporate Profile, Brand Portfolio & Technical Catalog

1. Company Profile & Overview

Fluxmatic Solution LLP is an Indian Limited Liability Partnership (LLP) incorporated on July 7, 2022. The company is headquartered in Greater Noida, Uttar Pradesh, and runs its primary business and exhibition operations out of Okhla Industrial Area, New Delhi. Fluxmatic specializes in the wholesale distribution, consultancy, and supply of high-quality architectural lighting fixtures to transform abstract lighting concepts into built reality.

At Fluxmatic, the focus is on architectural excellence, energy efficiency, and modern design aesthetics. The company collaborates directly with architects, interior designers, electrical consultants, and corporate clients to deliver custom-tailored, state-of-the-art illumination systems.

3. Our Philosophy & Value Proposition

Fluxmatic operates on three core principles:

- **Curated Lighting Portfolio:** By selecting only top-tier lighting brands from Europe and Asia, we make sure that all fixtures supplied are durable, highly aesthetic, and deliver excellent technical performance.
- **End-to-End Client Support:** We maintain constant and open communication lines with clients, designers, and project managers from initial consultation and light calculation to delivery and installation validation.
- **Aesthetic and Technical Blend:** We bridge the gap between design requirements (looks, glare indexes, color warmth) and electrical constraints (power consumption, heat dispersion, driver compatibility).

4. Lighting Brand Partners & Product Categories

Fluxmatic is the authorized provider and distributor for several world-class international architectural and decorative lighting brands. The following sections highlight the distinct product lines and philosophies of our key partners:

XAL (Austria) - Architectural & Linear Lighting Systems

XAL is a global leader in professional lighting systems. Based in Austria, XAL is synonymous with minimalist linear channels, profiles, recessed downlights, and custom-configured office lighting. Their products feature premium diffuser lenses, smart dimming integration (DALI, 1-10V), and excellent color rendering. Ideal for commercial workspaces, conference rooms, high-end offices, and architectural facades.

Wever & Ducreé (Belgium) - Trendy & Decorative Fixtures

Wever & Ducreé is a Belgian lighting designer specializing in trendy, decorative, and cozy luminaires. They blend Belgian design flair with cutting-edge LED efficiency to create aesthetic ceiling fixtures, wall sconces, pendant lamps, and spotlights. Perfect for boutique hospitality venues, restaurants, high-end showrooms, and residential spaces seeking a stylish, warm design touch.

NEKO Lighting (Switzerland) - Precision Downlights & Spots

NEKO is a Swiss-engineered brand focusing on professional, high-performance LED downlights and spotlight modules. Known for modular design structures (allowing easy exchange of reflectors and mounts), low Unified Glare Rating (UGR < 19), and premium heat-sink designs. Their systems, such as the Fusion and Club series, provide focused task lighting and general lighting for retail stores, galleries, and high-end residential interiors.

Wästberg / Wastberg (Sweden) - Designer Task & Desk Lighting

Wästberg is an award-winning Swedish brand that collaborates with renowned designers, artists, and architects (including David Chipperfield, Ilse Crawford, and Claesson Koivisto Rune) to create human-centric lighting. Wästberg lamps aim to restore lighting to its natural state, providing table lamps, desk fixtures, and pendant lights that prevent eye strain, support biological rhythms, and create a calm atmosphere in offices and homes.

Unilamp (Thailand) - Outdoor, Facade & Landscape Lighting

Unilamp is a premier outdoor lighting manufacturer specializing in highly durable, water-resistant, and dustproof architectural fixtures. Their product list includes IP65 to IP67-rated spotlight projectors, path bollards, inground uplights, facade wall washers, and landscape column projectors. Built with premium alloy housings and advanced thermal management, Unilamp products withstand extreme outdoor climates while delivering spectacular facade illumination.
